Кофемашина автоматическая Astrolab III PP

Our premium models, which have the most advanced features on the market, are easy to use. Available in Pressure Profile versions, with programming of pressure profiles for the extraction of each coffee, or Multiboiler, with traditional extraction at 9 bar. It's your choice.

GENERAL FEATURES:

Astrolab is a machine that allows the creation of 5 pressure profiles per group and the extraction of coffee through a slight movement of the electronic lever. The operating system guarantees direct control of extraction and all technical parameters of the machine.

Pressure Profile

Working with pressure profiles means that the barista assigns a sequence of various pressures to the extraction, allowing the characteristics of the coffee or blend to be highlighted. Astrolab gives you full control over pump pressure throughout the extraction

Multiboiler

System of multiple and independent boilers. Astrolab has pre-heating of the coffee water, guaranteeing performance and energy advantages.
